Effective Study Techniques for Chapter-wise Questions

Active Recall and Spaced Repetition

Active recall involves testing yourself on key concepts without looking at notes. Pair this with spaced repetition—reviewing questions at increasing intervals—to cement knowledge.

Problem Solving Strategies

For each chapter, develop a systematic approach:

1. Read the question carefully and identify the underlying principle.
2. Write down known formulas and relevant variables.
3. Sketch a diagram if applicable.
4. Execute the calculation step by step.
5. Verify the answer against expected units or ranges.

Time Management in Chapter-wise Practice

Allocate a fixed time slot for each chapter during practice sessions. Use a timer to simulate exam pressure, ensuring you finish within the allotted time.

Analyzing Mistakes and Tracking Progress

After each session:

- Mark questions you got wrong and note why.
- Use Solesa's analytics to see patterns of errors per chapter.
- Adjust your study plan to focus on high error chapters.
